CONSCIOUS PRODUCTION APPROACH

We Draw Our Power From Nature

We produce a large portion of the electricity used in our production facilities ourselves using solar panels

Health in Your Living Spaces

We protect indoor air quality by choosing eco-friendly water-based paints and varnishes that do not contain heavy metals in our furniture.

We Use Certified Wood

Every piece of wood used in our furniture comes from sustainably certified forests grown for industrial purposes (FSC certified).

We Transform for the Future

We minimize natural resource consumption by using recyclable metal, textile, and packaging materials in our production processes.

We Adopt the Zero Waste Principle

We contribute back to the economy by converting sawdust and wood scraps generated during the production process into pellet fuel.

A Sustainable Future

We reject the 'disposable' mindset and offer a long-lasting user experience through high-quality materials and robust craftsmanship.
